

INSTRUCTIONS

- 1 Choose a puzzle card. They range in difficulty from **Easy** to **Very Hard**.
- 2 Place the colored balls into the pockets on the board as shown on the card.
- 3 Now try to fill the remaining pockets with colored balls so that:

No color is repeated in any row of 9
and No color is repeated in any column of 9
and No color is repeated in any 3x3 square.

That's it! Sounds easy, doesn't it? It's not!
